FEWER CLUBS NOW THAN BEFORE LAST SESSION

LAST EDITION. Fair and mild today and Thursday. No. 49

RELATION OF THE LABOR UNIONS TO ALL EDUCATION

Professor Burgess Says It Is Necessary They Should Be Behind Systems. DELIVERS INTERESTING ADDRESS TO CONVENTION Many Fine Papers Read—Committees Are Struck For Year.

The government of Alberta is greatly interested in education and the sentiment of the people of the province is behind them. We have made a start at the university and everyone should take an interest in it. Professor C. Burgess, of the architectural faculty of the university to the delegates to the building exchange convention in the old Presbyterian church this morning.

Professor Burgess gave a brief account of the architectural course at the university, having stated on the prevalence and importance of steel in modern educational construction. He also went into the technical situation, and after it had been discussed by several of the delegates present, the question of the attitude of some of the labor unions towards the technical schools was brought up.

The professor stated that the labor unions would have to be behind any system of technical education. It is their children who would attend the schools, and they must be in favor of the schools, without them they could do nothing with them existing.

An Interesting Paper J. P. O'Leary, of Spokane, read a paper on "Re-enforced Concrete and Public Structures." He said that there were evidences that the upper tiers of most of the famous ancient pyramids were built not of stone as had been supposed, but of concrete, as pieces of wood had been found embedded in it.

Mr. O'Leary gave instances of roads in the old world which had been built in ancient times of concrete and were still in good condition. Northeast of Mexico City there were pyramids built by now vanished civilizations, and today in a good state of preservation.

Although seemingly discovered so early, commercial application of concrete had not become general till about 1890, but now practically all schools, theaters and semi-public buildings were of concrete, and leading architectural firms were installing concrete reinforced walls to give them new ideas in concrete construction.

Appointment Committees Yesterday afternoon's session was of a routine character, the report of the president and secretary having been read. Following this, the president, J. Davidson of Winnipeg, made a short executive report, telling briefly of the work done during the past year, and predicting that 1914 would be a year of great activity in the building trades.

Committees which are bringing in reports this afternoon, were struck as follows:

Resolutions—T. C. Poole, Edmonton; C. E. Dyce, Medicine Hat; A. W. Cassidy, Saskatoon; A. Bourgeois, Winnipeg; G. Silvester, Calgary; W. Warwick, Winnipeg. Resolutions—C. Patton, Edmonton; J. Fryal, Saskatoon; J. A. Tremble, Medicine Hat; R. Brockbank, Calgary; W. W. Sharpe, Winnipeg; C. D. Leach, Lethbridge. Legislation—T. H. Miller, Edmonton; H. Sutherland, Winnipeg; G. Hodson, Medicine Hat; J. M. Carr, Calgary; J. Bicklow, Saskatoon; C. R. Frost, Edmonton.

MUNICIPAL GAZETTE TENDERS SOON TO BE ASKED BY COMMITTEE

An effort will be made to hold an early meeting of the special committee named last night to take up the recommendation of the mayor that a municipal gazette be issued in the city of Edmonton. If possible, a date will be arranged today or tomorrow, and the proposition discussed.

When asked how it would be printed, the mayor explained that as soon as a definite plan has been arranged, all the printing firms in the city would be given an opportunity to tender on the job.

He hopes that the committee will have the matter all arranged and a report ready to submit to council not later than the regular meeting next Tuesday.

If this can be done, it will then be possible to get under way with the publication within the next two weeks.

PREFERRING DOGS TO HUSBAND, SHE'LL MAKE BITTER FIGHT FOR DIVORCE.

If Mr. Willets contests my suit for divorce," said Mrs. Samuel Willets, in Washington, after a conference with her lawyer at the New Willard Hotel, "the quaint little courthouse at Fairfax, Va., will awake from its slumber of slumbers, but I do hope that the young and beautiful wife of the New York society man, alleged that her husband subjected her to extreme cruelty, and she was very fond of animals, especially horses and dogs, and was recently quoted as saying that she was devoted to matrimony and intended to devote her time to her pets.

POLICE DEPARTMENT HAS NOW NOTHING TO DO WITH CIVIC RELIEF

The civic relief and free employment bureau will in future be operated independently of the police department. T. M. Turnbull has for some time been anxious to have his office operated directly from the city hall, and Commissioner Booth has now arranged that this be done. Since February, 1911, the bureau has been in the police department, necessitating at times annoying delays which the superintendent expects will not occur in future. His staff at present consists of three clerks and Miss Southall who spends a great deal of her time outside of the office.

DYNAMITED STATE TREASURER'S VAULT; MADE A \$5 HAUL

Des Moines, Iowa, Feb. 25.—An unsuccessful attempt to dynamite the vault in the state treasurer's office here was made early today. Two of the state house watchmen were bound and gagged, but the safe blowers got only \$5, which they took from an appeal from the treasurer's office. After two explosions were set off around the door of the vault the men were about to begin a third attack when they were interrupted.

Japanese Make Appeal London, Feb. 25.—The state department has received an appeal from the famine relief society, asking that publicity be given to the critical condition existing in northeastern Japan.

GARIEPY FAVORS KEEPING EYE ON TOWNS' INTEREST

Legislation is forecasted whereby sale of municipal debentures watched. CABINET MINISTERS ARE GIVEN GREAT RECEPTION Speak at Many Meetings in Southern Part of Province.

A piece of legislation forecasted for the next session of the Alberta house is an act to create a loan board, the function of which will be to watch sales of municipal debentures and guard the interests of towns and villages within the province. It will be under the department of municipal affairs.

Hon. Wilfrid Gariepy, who now presides over this department of the government, has just returned from a trip to the southern part of the province and is more than ever convinced that the move, which was initiated by Hon. Charles Stewart, his predecessor in office, is a good one. The department has gathered a great deal of information and data on the subject from places where loan boards are in existence.

Hon. Charles Stewart, minister of public works and getting premier and Hon. A. J. McLean, provincial treasurer, accompanied Mr. Gariepy on his southern trip. All three of the cabinet ministers having considerable work of a departmental nature to look after in that part of the province.

While away from the city they attended several local meetings and banquets. Last Thursday at noon they were guests of the Lethbridge board of trade, when the business men of the city made requests of the minister for a land registry office, a school of agriculture and a college of engineering for their city. Mr. Gariepy on Friday morning spent a couple of hours with the mayor and council of Pincher Creek discussing some of the problems which affected that town and the government jointly.

The minister spoke at the annual meeting of the liberal association at Lethbridge last Tuesday, at Cardston on Wednesday, Cowley on Thursday evening and Pincher Creek on Friday afternoon, while on Friday evening he attended a non-political dinner given by the Pincher Creek board of trade. Mr. Gariepy says that progress for liberalism look better than ever in the north, after the coming into force of the Wilfrid Gariepy act, and that he has met for some of the products of the Alberta farmer.

CONVICTS PAROLED AND PAID FOR WORK; TEXAS EXPERIMENTS

Dallas, Texas, Feb. 25.—Reverend Dallas for 10 years, were signed by Governor Colquitt yesterday, and with their departure from the Huntsville penitentiary today the state will inaugurate an experiment in the management of prisoners without guards or fences and a project of releasing them for work on public roads. The state will receive \$15 a month for each convict, half of this will go to the penitentiary fund and half to the man's account. The county in which the men work will maintain them without the expense of guard and overseers.

ESTIMATES FOR THE EXHIBITION WORK TO BE CONSIDERED

The park and market committee of the council in session this afternoon considering the estimates of the Exhibition association, the grant or appropriation of a sum for music in the park this year. The opening of Donald street, the purchase of a portion of land near the south side power house from John Walters, the grading of a road, and the raising of a fence around the south side athletic grounds.

The committee on the operation will meet to consider the reduction of rate to electric light consumers. The committee on the superintendent of the city will be asked to present at this meeting. It is following up the suggestion of the mayor that the rates should be reduced as low as possible without interfering with the departments.

For More Missionaries Moscow, Feb. 25.—A series of Presbyterian meetings are being held the past two days closed here last night with an address by Rev. Dr. Murdoch McKenzie, moderator of the general assembly who spoke on the need for more missionaries for the foreign field.

CLUB CHARTERS NOT PROPRIETARY, SAYS INSPECTOR

Permits Issued to Membership, Not to the Individual. ALL SUBJECT TO CLAUSES OF LIQUOR LICENSE ACT Incorporation Carries No Right to Deal in Liquor and No Individual Ownership.

Attorney General's Dept. Licensing Branch Edmonton, Feb. 26, 1914. Sir—I beg to acknowledge receipt of your communication of January 27th, with reference to the Eastern Club. Before we can do anything in connection with this matter it will be necessary to know with whom we are doing business: the act to incorporate the Eastern Club does not mention any of the names appearing on the list of papers you have sent to me. This act is contained on page 32 of the Statutes of 1913, chapter 57. There is nothing before this department to show that the parties mentioned herein have been incorporated as a club.

Under the circumstances any attempt to sell or dispose of liquor on a premises by these people, will leave them open to prosecution under the liquor license act. Your obedient servant, F. G. FORSTER, Chief License Inspector.

CHALMERS AFTER BEST MAN IN THE WHOLE OF CANADA

Commissioner Off to Montreal to Get New Street Railway Superintendent. SERVICE PREFERABLE TO REDUCED COST First Consideration to Give Residents What They Demand, He States.

The best street railway superintendent in Canada is none too good for Edmonton and Commissioner Chalmers is now away to Montreal and will see that such a man is secured to fill the vacancy caused by the resignation of the present superintendent, W. T. Woodroffe, which takes effect on April 1st. In discussing the situation in the present superintendent, Mayor McNamara admitted that Commissioner Chalmers will set a first class man. As to the future policy of the department, the mayor had this to say: "I do not know what the new man will think about it, but the policy of the department will be to give the very best service possible to the citizens. To do this it may even be necessary to raise the fares to straight five cents, but I do not really think that the citizens would object very much to that. I am sure that they will be glad to have a first class service at a cost of five cents in preference to a demoralized and altogether inadequate one at a reduced rate."

The mayor then explained that it is not at all unusual for private lines in the states to charge a straight five cents, in fact no city west of Cleveland has been known to charge less than this rate. The first consideration will be to give a service in keeping with the demands of the citizens and in accordance with the density of population, then the question of putting the department on a paying basis will be taken up.

FEWER CLUBS NOW THAN BEFORE LAST SESSION

Mr. Forster, "there is no such possibility as the transfer of a club license in the sense that the Bulletin is attempting to make it appear has been attempted, nor is the club privilege a proprietary asset which could be transferred from one individual to another in any such manner. Clubs are incorporations by the legislature, the incorporation being issued to the membership, but the incorporations do not carry with them any right to dispose of liquor, such permits being issued entirely at the discretion of the department."

Incorporated in every charter issued by the legislature is provision that copies of the by-laws, constitution, rules, regulations, in fact everything in connection with the incorporation of the club, be filed with the department, and the department must know just who are the officers and the responsible members connected with every club, immediately it is formed under the charter granted. This having been shown to the satisfaction of the attorney-general's department a permit may issue, but the permit is to the club, not to any individual member of the club.

"In every club charter Section 9 will show that the powers granted to the club, shall be at all times under any liquor ordinance now in force or which may be brought into force, and section 15 of the club regulations shall be the regulations for 1914 governing clubs, show that a permit may be renewed at any time, in whole or in part, without compensation and without appeal."

Clubs Under Rigid Inspection. "The permit granted is to keep liquor on the club premises for use of club members," says Mr. Forster, "and the license is not a license to retain in the hands of the licensing department the power to regulate the sale of liquor, but it is a license to privilege. Up until last year there was little or no serious attempt to inspect or regulate the clubs of the province, although there were more than now. At last session a fee of \$500 in cities over 20,000 was exacted, \$400 in cities over 10,000, and \$250 in municipalities less than ten thousand, and the inspection of clubs was made a specific duty of inspectors who are put on for that purpose."

Fewer Clubs Now Than A Year Ago. "That the number of clubs has increased in the past year, and that it is entirely beside the facts, is shown by the fact that the number of clubs in the province of Alberta at the present time as compared with a year ago. When the present regulations were put into force and the clubs of the province placed under the licensing department, there were actually in existence in this province 25 clubs. Fifteen of these clubs, in all parts of the province, were granted at the last session, but a number of these never took advantage of their charters, while several others heretofore established dropped out, some on account of the change in the license fee, and others, such as the Strathcona club, for instance, on account of the size of the club. The number of clubs in the Western Porters' club, had its permit cancelled and was put out of existence for refusal to abide by the regulations. In the winter of last year there were 22 clubs, against 25 a year ago."

Clubs Comply With Regulations. "Since the regulations were adopted," says Mr. Forster, "the clubs are complying with the regulations, reasonably well, and compliance with the regulations is a matter of record in this department, that since the first of January 1914, there has not been a single complaint filed in this office against any club, either in Edmonton or in any other city in the province. Were such a complaint to be filed it would receive the immediate attention of the proper officials, and the persons making the complaints would be subjected to no onerous publicity as a consequence of having made a complaint. The Bulletin, if it has any complaint to make, has this opportunity."

With regard to the Eastern Club, the chief licensing inspector explains that this club, which holds only a charter, and in the list of charter members furnished the legislature the name of Cohen, the man whom the Bulletin alluded to, will be the first to be notified by the department, and he will be asked to appear. So far from anyone being able to sell liquor, anything of the sort would be to the license, such is impossible, and the department has consistently refused to even grant a permit for the reason that the club has not fulfilled the necessary qualifications.

CAMERON IS FOUND GUILTY ON CHARGE OF WHITE SLAVERY The white slave case, in which George Cameron, in the accused, was concluded this morning, before Justice Stuart and a jury. Cameron was found guilty and will come up for sentence later. The case has been in session for the last two days and is in connection with the case of the late Percy Tamblin and Dan McGillis, who were also convicted on a similar charge.

NO SUCH PRICE TO ANY OTHER WESTERN CITY

Tender Sent in is Higher Than That Recently Received by Calgary. OFFERS TO BE TAKEN UP THIS AFTERNOON Executive Does Not Anticipate Difficulty Finding Necessary Money.

If any citizen of Edmonton doubts recent reports of the loosening up of the money strings, such misgivings will be entirely dispelled when it is learned that several offers have been made for city of Edmonton debentures during the past week. The mayor explained this morning that one offer in particular was made through the Imperial Bank for \$2,000,000 worth of debentures. The price offered was \$100 and could not divide at this time, but he assured the Capital representative that the offer was not to be taken into consideration. The offer was made by a city in Western Canada and is in advance of the price recently received even by Calgary.

A meeting of the finance committee will be held this afternoon to consider the offers already made and particularly the one coming from the Imperial Bank.

Mayor McNamara is quite enthusiastic over the prospects for the sale of the debentures this year, and according to present indications he does not anticipate any difficulty in finding the money necessary to carry through the complete program covering the estimates now being passed.

SPokane is ONLY ONE DAY JOURNEY FROM CITY NOW

Alberta Superintendent of C.P.R. Tells of New Service Incorporated.

SEVEN OR EIGHT HOURS WILL BE CUT OFF TRIP Expected That It Will Not Be Necessary to Change Cars From Calgary.

That the Canadian Pacific railway will shortly put on a new service from Edmonton south, which will enable passengers for Spokane to leave Edmonton in the morning and arrive in the Inland Empire city the next morning, is the news going to points in the Crow's Nest country to arrive at their destinations the same night, was the welcome news which D. C. Coleman, general superintendent of the railway at Calgary, gave this morning upon his arrival from the north. Coleman, who is Robert Preston, assistant superintendent of motive power for western lines, is in the city on a tour of inspection. He is accompanied by Fred Anderson, division engineer, and P. E. Trautman, of the publicity department.

Between Edmonton and Spokane the proposed time table will give a 25 or 30 hour service each day. South-bound travelers can leave Edmonton at 8 or 8:30, arrive in Calgary at about 1:30 p.m., and make direct connections there, with a wait of only ten minutes, for Spokane, arriving there at a convenient hour the next morning. Passengers for Edmonton will leave Spokane in the evening, arrive at Calgary early the next afternoon and Edmonton in the evening, by present train 525.

It was also expected that it will not be necessary to change cars at Calgary when the time table is adjusted between that city and Edmonton, but that the equipment will run through from here to Spokane. The new service will make it unnecessary to stop a night at Macleod when traveling from Calgary or Edmonton to points in the Crow's Nest district, as passengers will be able to reach Spokane in one day, and make direct connections there.

At present it requires about 23 hours to go from Spokane to Edmonton, and the new schedule will cut off seven or eight hours, and in addition, arriving and leaving hours will be more convenient.

SIXTY PERSONS SAVED BY BOSTON FIREMEN; BELOW ZERO WEATHER

Boston, Mass., Feb. 25.—Sixty persons were carried down ladders by the firemen in a fire which did about \$25,000 damage to the fashionable Riverside Hotel apartments of the Fenway early today. The temperature was below zero, causing much suffering.

KEEP YOUR FURNISHED ROOMS PROFITABLY TENANTED BY A LITTLE WANT AD

Council Notes

Alderman May gave notice of motion that the parks department be instructed to plant ornamental trees around the old market site.

City Auditor A. N. Mount was re-appointed for the year 1914 at a salary of \$4,000, same as last year. Aldermen East and Kinney were the only members of council not in favor of the appointment. They moved in amendment that the matter be held over until the auditor's statement for the past year has been received. No support was given to the amendment. Besides the mover and seconder and the appointment was made with eight members of council voting in favor. Aldermen East set out at some length his reasons for asking for a delay in making the appointment, chief of which was the fact that the city auditor had recommended an independent audit extending back over four years, which will cost the city \$10,000 and yet in his preliminary report issued the first of this month nothing very irregular has been pointed out. Aldermen Driscoll praised the work of the city auditor, stating that he was a capable man and he would be prepared to back him up.

Relative to representations to be made to the dominion government in the matter of making the Saskatchewan river navigable, letters were read from Frank Oliver, J. M. Douglas, W. A. Griesbach and G. B. Campbell, each promising to do whatever is possible to urge on the government the necessity for passing the appropriation of \$50,000 for this work, which has been placed in the estimates for this year. Aldermen Clarke, in moving that the letters be filed, suggested that the mayor might also take the matter up when he goes east.

Letters were received from C. Ross Palmer, Charles Gowan and F. F. Tupper asking the council for information as to the outcome of the request made some time ago for an extension of the street railway through Forest Heights. The committee on operations will consider the request and bring in a report at a later meeting.

Acting on the recommendation of Dr. Whitelaw, the council appointed Dr. Collins as a member of the board of health, his term having expired. Dr. Whitelaw states in his report that Dr. Collins has been an attentive member to the duties of the position which he has held during the past three years.

A complaint made by the Western Carriage Co. relative to the high cost of power supplied by the city for running the elevator has been referred to the committee on operations for a report. In the letter the statement is made that where the regular cost of power is calculated to be \$15 per month the minimum charge is \$25.00.

The council was treated to a pleasant surprise last night when a letter from the committee of the recent bonfire was read in which they informed the city that the sum of \$200 was being returned as the unpaid portion of the \$1200 granted by council. Alderman May remarked that he could only remember one other instance where money had been refunded to the city and that was from the board of health.

A petition from property owners on Fifth street west was presented in which they ask that the old method of charging up the street widening be adopted. The matter was reported adversely by the city solicitor, and was not recommended by commissioners, the council therefore filed the request.

Any arrangements entered into by the 1912 council for the financing of several local improvements were ordered cancelled last night and the council completed as a part of this year's program in the usual manner. Several of these instances are as follows: L. E. Cate, who agreed to put up the cash for a portion of sewer extension; P. Burns & Co., who agreed to finance temporarily the paving of Spadina avenue; Margaret Heald, who had money provided for the paving of an artery to the Highlands and the C.N.R. for having in the vicinity of the new south side depot. All of this work will be undertaken this year in the ordinary way.

With a great deal of reluctance many of the aldermen last night voted in favor of additional or supplementary estimates to make up the over-expenditures on a number of the works undertaken last year. Some of these are \$2,000 for additional furniture in the civic building; \$2,000 to apply on the construction of the civic building and \$4,000 for other unforeseen expenditures.

While the sum of \$4,000 was set apart by the council of last year to complete the new system of numbering, Commissioner Beach on investigation found that another \$1,000 would be required to pay the accounts now outstanding and complete the work. This amount was passed by the council last night.

The widening of Kirkness street in accordance with the plan recently adopted by the safety and health committee was approved and the work will be undertaken this year. When this year's work is to be moved back the cost will be apportioned to the property owners on the street.

On motion of Alderman Clarke council adjourned until 10:20 a.m. on Thursday to take up estimates and any other business that may be on the agenda.

CALGARY NO LONGER "COWTOWN" NEW NAME IS "THE OIL CITY"

Calgary has discarded its old cognomen like "cowtown," the "foothill city," the metropolis of Alberta, and so on. It does not even want to be known as the ambitious city, and as Edmonton is now said to be larger the live ones from the southern city can no longer fairly claim to be the largest city between Winnipeg and the coast. But Calgary can't be beaten, particularly when such a thing as a slogan is needed. And they now call it "The Oil City." All the delegates from Calgary to the builders, painters and clay products conventions this week wear emblems which inform the public that Calgary is the oil city of Canada. "The Oil City, we have told," is the way they talk to people who mention the subject.

Chinese Will Appeal. Regina, Feb. 25.—Local Chinese say they will appeal to the decision of the supreme court of Canada, upholding the validity of the Saskatchewan act prohibiting the employment of white girls by Chinese to the jury council.

Billiousness

When the liver refuses to work there is no remedy like the combination of dandelion, milk thistle and other ingredients in Parnelle's Pills. They bring help to the digestive organs, they do not tire. They stimulate the system. They drive out the undigested food.

The New Spring Suits For Men and Youngmen

Invite Your Attention

It is without the slightest hesitation that we make the statement that men's suits were never before as handsome as they are this season. It is quite natural that they should be so, for each year sees an improvement in the tailoring art—resulting in better draping, better fitting garments. And every person who has given the matter any attention knows that the fabrics for 1914 are the handsomest that have ever been produced. The clothing we are showing is manufactured by Canada's recognized leading manufacturers and is sold under a trademark guarantee and advertised name. We cannot use the name, however, because we sell them for less money than they are made to sell for. But you need only to see these clothes to realize that they are the products of the country's best tailoring art.

At \$25.00 we have an extensive range of elegant patterns in all the best American models. One swell suit is of tan homespun fabric. It's a dressy two button style of notably distinctive character.

Something out of the ordinary is a rich, soft silk-like cashmere lined with good wearing silk. It's a deep blue with narrow white stripes. Trousers have cloth belt to match. The workmanship in this suit is the equal of the best custom tailoring. Price..... **\$30.00**

Pennants vs. Lacombe Tonight : Fashion Craft Games Next Week : Dominions for Allen Cup

PENNANTS PLAY LACOMBE TONIGHT
IN INTERMEDIATE SEMI-FINAL

Is First of Home-and-Home Games for Championship—Eskimos and Dominions Will Meet Next Week in Fashion Craft Games.

The first home-and-home game between Pennants and Lacombe in the Northern Provincial Intermediate division will be staged tonight at the south side rink. Pennants are picked as their strongest line-up in hopes of gaining a substantial lead on goals over the visitors from the southern burg, who are reported to be a strong and husky aggregation, having cleaned up everything in sight so far in the intermediate league.

"Reddie" Brinkman will make his appearance with the Pennants, playing the point position; Jimmie Hill at cover and Ted Garrison completes the strong defence of the locals. Whitelaw, Knowlton, Elliott and Horie constitute the center and forward lines, and will make the best of them travel this evening.

That it will be a contest that will be well worth seeing goes without saying, as the Pennants are by long odds the strongest and fastest intermediate team this province has ever seen, and have lost but one game in six.

Tonight's game is a semi-final, and the winner of the round will play the winner of the southern division for the championship. The teams will line up as follows:

Pennants—Goal, Garrison; point, Brinkman; cover point, J. Hill; rover, Whitelaw; center, Knowlton; left, Elliott; right, Horie.
Lacombe—Goal, Mann; point, Hyslop; cover, Reid; rover, Melvin; center, Hay; left, Gastand; right, Fleming.
Manager McKenzie of the Dominions, who is the near future. Those will likely be arranged for next week at the Arena. The Eskimos, who won the trophy last year, will this year defend the cup against the challengers, and the series should draw large crowds, as there is nothing in the world quite so exciting and interesting as a road odd came between the Eskimos and the Dominions.

The winning of the Fashion Craft cup represents the senior amateur hockey championship of the city, and the cup must be won four times in succession before becoming the property of any team. The gate receipts of the games are divided equally between the teams, after rink and other expenses have been paid. The exact dates for the games will be announced tomorrow.

JOHN EVERS FEARS
HIS \$20,000 BONUS
MAY BE SLIPPING

Chicago, Feb. 25.—Fear that some slip may occur to prevent his getting the \$20,000 bonus said to have been promised in the deal whereby he was sold to the Boston club was expressed yesterday by John Evers, deposed manager of the Chicago National League club. Evers came here to pack his things preparatory to joining the Boston team at Macon, Ga. He was worried about the \$20,000 he said. Evers said he was pleased with the \$10,000 salary he was to have, but added: "The contract would be void unless the bonus was given." The bonus, however, he said, on whether Johnny Sweeney and Berlin reported to the Chicago club for this season. Evers asserted he suspected one of them might fail to report.

If the weather only remains cold for another week the O.H.A. intermediate and junior series will likely get through on good ice. Several fast teams have been put away in previous years on account of the mild weather, and not because they lacked ability.

In the intermediate series Orrilla, Berlin, Hamilton, Sarnia and Winton are still in the running, and unless something happens, it looks like Berlin and Orrilla for the finals.

SKI TOURNAMENT
NEXT SATURDAYWill Be Greatest Event of Its
Kind Ever Held in West-
ern Canada.

The Edmonton Ski club and their supporters are getting ready for the big ski tournament next Saturday afternoon, and they feel confident that this meet will be a record one as every thing is in fine shape. The tournament will be the biggest of its kind ever held in western Canada.

The slide has been built 12 feet higher than before, so the Ski club is trying to meet the demands of the plucky skiers, who are always crying for more speed. At a trial last Sunday afternoon they easily proved that they give the Edmonton citizens a better exhibition of ski jumping than ever before.

The old stars from last years tournament are training hard to hold their own with the new comers that will be in the competition at next Saturday meet.

The competitors will be divided into two classes. Class A and B. Class A will take in all those that have taken prizes at Edmonton ski tournament before. Class B, those who have not reached the prize list, but class B have the privilege to transfer to class A if they feel themselves able enough to take on class A, as the prizes will be of more value in class A.

The prizes for this year's tournament have been donated by Edmonton merchants, the Edmonton Ski club, the Order of Sons of Norway, and a special prize is arranged for by the ladies interested in the ski sport. The prizes will be on exhibition at Jackson Bros. for the balance of the week; they being interested in ski sport have offered one of their windows to help boost the Ski club.

McTAVISH LOST
AT HOCKEY 7-1
TO ROSE COLLEGE

As exponents of the game of hockey, a team representing the Rose Business college, demonstrated to the McTavish Business college seven last night at the south side rink, that they are past masters of the art, and emphasized the claim by running up a 7 to 1 score against the McTavish crew. At half time the score was 4-0 and the winners had all the best of play. Early in the second half McTavish tallied their only counter, but for the balance of the game were unable to break through the stonewall defence of the "Roses." A large crowd of enthusiastic rosters witnessed the contest, the fair sex being in much evidence.

HORSE RACING AT
EXHIBITION TRACK
THIS AFTERNOONLarge Entry List in Three
Races—Best Two Heats
in Three.

An attractive list of horse races is billed for this afternoon at the Exhibition grounds, under the auspices of the Edmonton Driving club. There is a large entry list and three races are carded. Races to be half mile heats, two out of three. The track committee report that the track will be in first class condition.

Mr. J. Noble, whose services as starter were so efficient at the meet New Year's day, will again start the horses. The judges will be J. B. Stiller, R. E. Hill and Mr. Portman. Races will commence at 1:30 sharp. Admission free. In the 2:20 class four entries, and in the 2:40 class five entries, so it will be seen that some interesting races may be expected.

DICK ROSS GETS
FIRST DEFEAT AT
MOOSE JAW SPIEL

Moose Jaw, Feb. 25.—Soft ice hampered the curlers somewhat yesterday, but nevertheless some very interesting games were witnessed by large crowds. The visiting riggers again had a good day and won the majority of their games. The grand challenge is into the eighth and three Moose Jaw ships are in the lead. J. B. Alexander and Tuxford remain in the competition. Dick Ross was knocked out of the event during the afternoon by J. B. Alexander, who doubled the score on the Regina team. This is the only defeat the Regina ship has so far sustained. Gillespie and Shierhoff of Swift Current are still undefeated.

Moose Jaw All-Stars Win.

Moose Jaw, Feb. 25.—The Moose Jaw all stars won their only game of their return western trip last night in Swift Current, defeating the Baby City seven by a score of 14 to 4 after a hard game. The largest crowd ever in the Swift Current rink saw the game.

BRITISH RUGBY
FOR EDMONTON

A well attended meeting was held at the Y.M.C.A. last night for the purpose of discussing the probability of organizing a British Rugby league in the city for the coming summer. That there is an abundance of material in the city for a number of first class teams was evidenced by the fact that one team to be known as the Barbarians, signified their intention of entering the league, and it is known that there are a great many more players of ability at the British Rugby game in the city, who will be more than anxious to turn out with some good team.

No definite arrangements were made as to the league or other teams, but these matters will be taken up at another meeting to be held soon, the date of which will be announced later. G. V. Locke was appointed secretary, and any persons at all interested in the welfare of the British Rugby league in Edmonton, are requested to communicate with him as soon as possible. Phone 1014 or 4145 after 5 o'clock.

Jack Britton Wins Bout.

New York, Feb. 25.—Jack Britton, of Chicago, easily outpointed Frankie Madden, of New York, in a ten-round bout here last night.

MATHEWSON IS OFFERED MANAGER-
SHIP OF BROOKLYN BASEBALL TEAMFederal League Makes Star Pitcher Offer at His Own Price—Willing
Pay Double Last Year's Salary.

New York, Feb. 25.—The Federal League has made Christy Mathewson, star pitcher of the New York Nationals a proposition to manage the Brooklyn Dodgers at his own terms. President Glavin has wired Mathewson as follows:

"Will you manage the Brooklyn Dodgers? You may name your own terms."

"This is no stall," said Glavin yesterday. "We want a manager to manage Brooklyn and have failed to get Stah. We honestly want Mathewson. There is any possibility to get him, and he can play with Brooklyn at his own terms. He is not yet signed up with the Giants, and we will gladly give him twice as much as he received from the New York club last season."

Glavin has not yet received an answer from Mathewson. According to the New York club management Mathewson is on his way from Los Angeles to Marlin. Secretary Foster of the Giants said that Mathewson had not yet signed a contract but that he was waiting to get one of the new form of contract and was willing to sign as soon as a few slight details were straightened out.

WESTMINSTER WINS
VANCOUVER 12-9

Largest Scoring Game of Season in the Coast League.

Vancouver, Feb. 25.—Starting off in fine form, the mainstay of the lead throughout the New Westminster chess players finished on the top of a 12-9 score over Vancouver in the final matches of the season in Vancouver last night. It was the heaviest scoring game of the season and a whirling finish in the third period was productive of all the thrills of the great sport, the players drawing the curtains on the game for this season with brilliant combination rushes and featuring their performance with some sharp scoring, there being a goal in less than a minute and a half in the final period. The last game of the season will be played in Victoria Friday night.

SKATING CHAMPION
RETIRING AFTER
20 YEARS' SERVICE

Fred J. Robson, the veteran skater, is out with his 20th retirement announcement but today's looks like a real farewell performance.

Robson, who has been skating for 20 years, is 35 years of age, and held the Toronto city championship for 13 consecutive years—a record. He only surrendered his Friday after winning the 22nd year championship and his last in the 40-year record. "I won my first and last races, and so I have quit," said Robson. Robson has averaged eight races meets a season for 20 years, and during that time has skated over 500 heats and finals. He has nearly 500 medals, cups, watches, and other prizes. His list of championships includes everything on the United States and Canadian program, both outside and inside.

Ladies' Curling Final

The final for the Ash trophy was played yesterday afternoon at the Capital City rink. Mrs. Smyth's ship won from the strong rink skippered by Mrs. Griesbach on the last end by the narrow margin of one shot. The score was 9 to 8. The winners each received a piece of cut glass the gift of Ash brothers.

There is a young man named Levinak, who thinks that he is not a skater. He fights with some socks, and most of the time he does win.

Hidden
Things

The true test of value of any garment, lies in its shape keeping qualities, fitting qualities and wearing qualities.

These depend on the interior workmanship in the garment and these materials, and the work on them, form the part of the garment you cannot see, when finished.

They are between the outside cloth and the lining, next the body. This interior framework or foundation may be either complete or incomplete, according to the grade of the goods and the amount of careful work put on them. Just accordingly will the garment hold its shape, fit and wear.

We guarantee that in every Hoberlin coat, the customer will find a framework of linings carefully prepared, thoroughly worked, giving the coat splendid shape retaining qualities, perfect fitting qualities, and wearing qualities.
